SITUATION SUMMARY

Governor Brown Sends Firefighting Assistance to State of Washington

As thousands of homes and residents are threatened by devastating and deadly wildfires in the state of Washington, Governor Edmund G. Brown Jr. directed his Office of Emergency Services (Cal OES) and CAL FIRE to send firefighters and equipment north to help battle the flames.

- Four strike teams of fire engines and personnel (20 fire engines) from local government agencies and CAL FIRE departed northern California on 08/23/15. They were expected to arrive in Washington sometime early this morning.
- In addition to equipment and personnel from Cal OES and CAL FIRE's Amador-El Dorado and Nevada-Yuba-Placer Units, the following local government agencies make up the mutual aid contingent headed to the state of Washington: Colma Fire Protection Department, Dixon Fire Protection District, East Bay Regional Park District Fire Department, Modesto City Fire Department, North County Fire Authority (City of Pacifica), San Mateo City Fire Department, Santa Clara County Fire Department, Stanislaus Consolidated Fire Protection District, Winters Fire Department, West Stanislaus Fire Protection Department, Woodbridge Fire District.

SOC Activation for California Wildfires

- The State Operations Center (SOC) is activated at Level 1.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 1.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Increasing upper level high pressure to the east will bring southeast monsoonal flow into Southern California for possible afternoon and evening thunderstorms today through Wednesday.
- Strong gusty winds and low relative humidities will result in critical fire weather conditions from this afternoon through this evening for portions of Modoc County.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Morning low clouds, fog, and drizzle along the coast will give way to partial afternoon clearing. Meanwhile, interior locations will remain mostly clear, apart from areas of smoke. Cooling temperatures will arrive mid to late week along with possible rain late in the week.

Medford Weather:

The short term focus will remain on the dispersion of smoke. In the long term (Thursday and beyond) the influence of broad low pressure offshore from the Pacific Northwest is likely to increase, although perhaps not so quickly as suggested by the 00z gfs. There is a wide range of possible solutions, including the potential for a wetting rain.

Reno Weather:

High pressure over the southwest U.S. will drift slowly east later this week, as low pressure slowly approaches the Pacific Northwest coast. Above normal temperatures with typical afternoon zephyr breezes are expected today and Tuesday, followed by increasing winds and a cooling trend later in the week.

San Francisco Weather:

Typical summer weather conditions are expected to prevail through the week as a large area of high pressure persists over the southwestern United States. Temperatures will generally be near to a bit above seasonal norms through mid-week. Slight cooling can be expected for the second half of the week as a weather system approaches the Pacific Northwest and northern California. Some light rain is possible Saturday around the bay area.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Mainly dry weather continues this week with southwesterly flow across the region. Temperatures will be near average for late-August. Another short-wave later Wednesday and Wednesday night may bring another increase in mid and high clouds and perhaps some sprinkles. Forecast soundings are showing moisture mostly above 15,000 feet with a little elevated instability.

Hanford Weather:

Mainly dry weather can be expected over the area for the next several days. Temperatures will remain near to slightly above normal as the upper-level ridge lingers over the region through much of the week. Mid-level moisture will bring some clouds to the region Tuesday and Wednesday, and possibly a stray thunderstorm to the Indian wells valley and eastern kern county desert Tuesday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A large upper-level ridge building over the four corners region will bring a warming trend and above normal temperatures this week, along with a shrinking marine layer. Above normal temperatures may persist into next weekend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

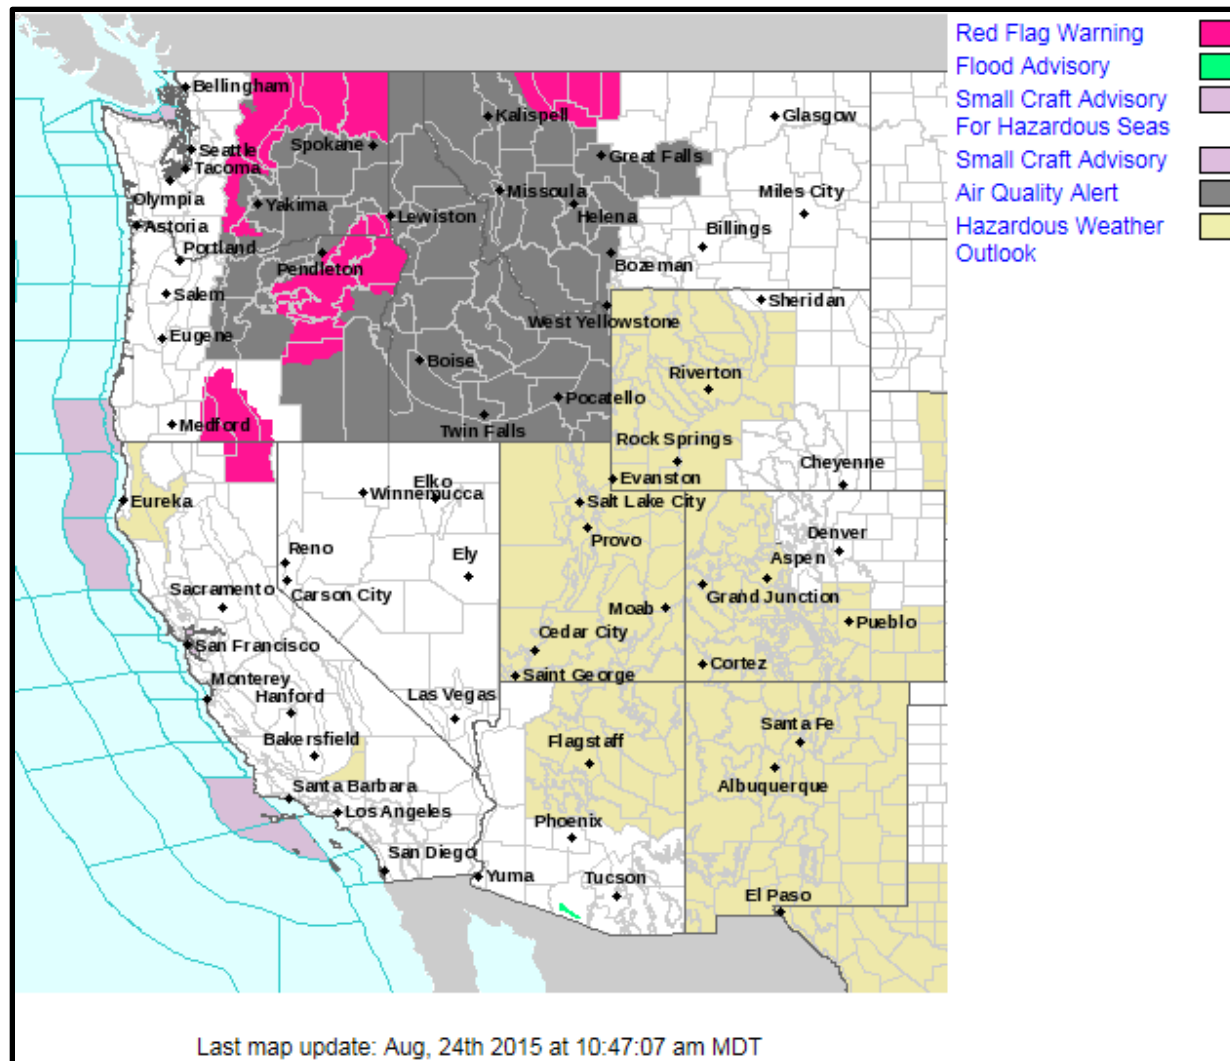

Building high pressure over the southwest will bring warmer weather and a shallower marine layer today. Thunderstorms may form over the mountains and deserts from late Monday through Wednesday afternoon as a band of monsoonal moisture surges across the region. Dry southwest flow returns for the latter half of the week with temperatures warming back up to a bit higher than normal seasonal levels.

Southeast California Weather:

Increasing chances for showers and thunderstorms will arrive Monday afternoon across Mohave County before spreading north and west Monday night into Tuesday. Widespread clouds and chances for showers and storms exist Tuesday and Wednesday before a gradual dry out begins Thursday. Dry and seasonably warm conditions are expected Friday onward.

 - Campgrounds in the Lower Lee Vining Canyon are open today. These areas include Lower Lee Vining, Moraine, Boulder, and Big Bend Campgrounds. Aspen Grove will continue to be closed throughout the week as the Incident Command Post will be set up at Aspen Grove Campground.
- Major Concerns: Potential threat to Highway 120 - major pass across Sierra Nevada. Possible threat to Lee Vining community and ranger station, Southern California Edison powerlines in Lee Vining Canyon providing power to Yosemite, and hydropower facilities in Lee Vining Canyon.

Rough, Vegetation Fire, Fresno County

Location: 5 miles north of Hume Lake and 2.5 miles southwest of Spanish Mountain

Jurisdiction: FRA

Start Time: 07/31/15 at 1933 hours

Per Cal OES, CAL FIRE, and ICS-209 as of [08/24/15 at 0553 hours](#):

- [49,440 Acres, 17% Contained](#)
- Structures Threatened: 450 mixed commercial/residential
- Structures Destroyed: 1 nonresidential commercial property, 3 other minor structures

Evacuations/Shelters: Mandatory Evacuation Areas:

- The Hume Lake Christian Conference was evacuated 08/18/15. Per the Cal OES Law Duty Officer (LDO) evacuation was accomplished in less than 2 ½ hours due in significant part to prior planning between Fresno Sheriff and the Camp Staff. The group of 750 to 1000 people were evacuated to a sister Church in Fresno for sheltering.
- There are 250 mandatory evacuations in the National Park Campgrounds in the immediate area of Hume Lake Christian Camp.
- There has been an evacuation of 32 private residences, believed to be all vacation homes in the Big Meadow and Heart Meadow Neighborhood.
- Approximately 1,500 campers in several Kings Canyon National Park Campgrounds located along 10 Mile Rd have been placed under mandatory evacuation.
- The American Red Cross has been called to open an assistance Center at Grant Grove in Fresno County for individuals being evacuated from the impacted wilderness areas of the Rough Fire. If demand gets too great the ARC will create a shelter situation.
- EOC Activations: Fresno County EOC is activated at [Level 2 from 0730-1800](#).
- The California Highway Patrol has also moved the road closure, which had been located at the intersection of Highway 180 and Hume Lake Road. The new road closure now sits further south on Highway 180 at Grant Grove Tree (approximately 2 miles north of the Hwy. 180 and Hwy. 198 interchange). The roadway will remain closed until authorities determine it is safe to reopen. The Sheriff's Office wants to make the public aware that no one will be allowed to enter the Hume Lake area; people will only be allowed to exit.
- Per CUEA, PG&E critical facilities and distribution assets are no longer in a high risk category for threats to power serving Central California. CAISO has reviewed PG&E facility locations that may be impacted by the fire and none of the locations would compromise the grid in any capacity. There would be no brownouts if these sites were impacted.
- Missions:
 - 2015-IREOC-15460 Two air monitors to Mariposa OA
 - 2015-IREOC-15468 One air monitor to Madera OA
- Local Government Resources: 30 local government engines assigned

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
